INTERPLY HYDRO**DEFINITION**

Undertiling cold-applied waterproofing system, to be applied between glued tiles and wooden-particle boarding or timber parquet.

SCOPE OF APPLICATION

Wet rooms (bathrooms, kitchen, toilets, etc, ...)

Note : this system is certified when applied onto composite-wooden flooring : wall beams + cross-beams + OSB wooden boards.

COMPOSITION

Self-adhesive Interply P underlay + Hydro Kit (Adek reinforcement angle strip, Ademas mastic, Siplast Primer).

Content of Hydro Kit :

- 1 can of Siplast Primer (2L)
- 2 rolls of Adek strip (0.10m x 10m)
- 1 Adek patch (0.50m x 0.50m)
- 1 mastic Ademas 310ml cartridge

SECURITY

It is not classified as dangerous according to the international regulation.
